

Best Doctors

Available to members of the Fenner Retirement Plan only

Best Doctors

Provides independent medical information, advice and recommendations from leading medical experts, helping to ensure your diagnosis is accurate and that you are aware of the most appropriate treatment options available.

The information is completely confidential and is provided directly to you. You will have the support you need to make informed medical decisions.

Access Best Doctors

Best Doctors is an employee benefit that is provided to all UK employees (and their eligible dependants) of an employer that has a Group Income Protection policy with Canada Life. The service is confidential and independent of the Group Income Protection arrangement.

Telephone

open a case with Best Doctors call at **0800 085 6605**.

Web

Log on to **www.askbestdoctors.com** click 'Register' and select 'Employee Benefit [Canada Life]' as the 'Company/Insurer'.

How it works

Best Doctors will identify a world-leading specialist who will undertake an in-depth review of your original medical documentation, ensuring your diagnosis is accurate, whilst helping you understand the most appropriate treatment options available to you.

Your dedicated Case Manager will support you throughout the review, discuss the findings in detail with you and deliver the results in a report that is sent directly to your home. You are free to share this information with your treating doctor.

Best Doctors funds the cost of your expert medical review and preparation of any clinical summaries, and also arranges for the collection and return of all relevant medical documentation. Best Doctors and Canada Life do not cover the cost of treatment or face-to-face consultations.

The costs of Best Doctors are inclusive to the scheme premium charged to your employer.
